

DCI/ICS 85-4003  
11 January 1985

STAT

MEMORANDUM FOR:   
DCI/ICS Representative to the  
Subcommittee on Automated Information  
Systems Security

STAT

FROM:   
Director, Intelligence Community Staff

SUBJECT: The DCI's Computer Security Threat Paper

1. I should like you to inform the Chairman of the Subcommittee on Automated Information Systems Security (SAISS), National Telecommunications and Information Systems Security Committee (NTISSC) that we have under way a review of the Computer Security Threat Paper intended for DCI use and promulgation to National Foreign Intelligence Council (NFIC) members.

2. We anticipate the distribution of the threat paper by the DCI in the very near future. The threat paper, deemed necessary for the DCI to carry out his responsibilities under the National Security Act and DCIDs 1/16 and 1/7, will be provided as soon as possible to appropriate officials including those involved in implementing the provisions of NSDD 145.

3. I appreciate the support you are providing from the IC Staff to NTISSC activities and want you to continue your involvement.
